Town Council approved by Resolution No. 99-359 a delegation request to establish an additional access opening 80' in width along Flamingo Road (to support right turn in and right turn out) centered approximately 110' south of the east 1/4 section line of Section 26-50-40.

Staff Analysis

On April 2, 1996, Town Council approved the ICE plat reflecting a 15' utility easement along a portion of the south and east limits of the plat located in the southeast corner of the site. The applicant is now requesting the approval to vacate said utility easement in order to construct a bank and fast food restaurant within Parcel "C" of the "Flamingo Commons Master Plan project".

Subsequent to the recording of the ICE plat, the applicants acquired the 1.33 acre parcel at the northwest corner of Flamingo Road and Orange Drive, being processed as the ICE II plat which is adjacent to the subject easement. Both plats will be developed as a unified master planned development, thus eliminating the need for the subject easement, which will be supplemented by easements within the ICE II plat.

Findings of Fact

The proposed request is not contrary to the Land Development Code or adopted Comprehensive Plan, as amended, or any element or portion thereof.

Staff Recommendation

Recommendation: Based upon the above and the positive findings of fact, staff recommends approval of application number VA 3-1-00, subject to letters of no objection from applicable public utilities.

Subject: ICE PLAT-Vacation of 15' Utility Easement
GGB Engineering Project No. 00-0119

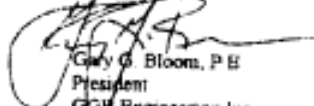

Dear Ms. Baluss:

On behalf of ROHO PLAMINGO, LTD. We have requested a vacation of an existing 15 foot utility easement around a portion of Parcel "A" of the ICE Plat as recorded in Plat Book 155 page 21 of the public records of Broward County.

The justification for the vacation is the fact that a new 15 foot utility easement will be described as part of the platting of the acreage at the intersection of Orange Drive with Flamingo Road that was previously carved out of the original ICE PLAT. The new easement to be described as part of the platting will describe the easement along the perimeter of the ICE PLAT and along the roadway arteries for ease of installation and maintenance as is normally provided. The requested easement to be vacated was original directed outside of this corner out parcel which was not part of the original ICE PLAT. This vacation request is therefore necessary to strengthen the easement along the perimeter of the ICE PLAT parcel and not encumber any potential development within the ICE PLAT boundaries.

If you have any questions regarding any of the above, please feel free to contact this office.

Sincerely Yours

Gary G. Bloom, P.E.
